

A vibrant, abstract illustration of an underwater ecosystem. The scene is filled with a variety of translucent, glowing organisms. Large, bell-shaped jellyfish in shades of blue, green, and pink dominate the upper half. Below them, smaller, more rounded organisms, possibly coral or anemones, are visible in warm tones of yellow, orange, and red. The overall effect is dreamlike and ethereal, with soft lighting and overlapping colors creating a sense of depth and movement.

JELLYFISH

MARTA CALVO
